K.P.D POWER
ELECTRICAL CONTRACTORS

Company Portfolio.

2026

Built to perform. *Backed by experience.*

Since 1988, K.P.D Power has delivered electrical infrastructure across healthcare, commercial, public-sector, industrial and residential environments. One accountable team carries each brief from design through commissioning and close-out.

Founded by Logan Naidu · 1988

WHY CLIENTS CHOOSE K.P.D POWER

01 ONE ACCOUNTABLE TEAM

Design, installation, testing and close-out.

02 CRITICAL-ENVIRONMENT EXPERIENCE

Healthcare, public infrastructure and commercial sites.

03 QUALITY-MANAGED DELIVERY

ISO 9001:2015 systems and documented compliance.

04 GRADED FOR PUBLIC WORKS

CIDB 6EB PE · 5EP PE, building and infrastructure classes.

1988

QUALITY SYSTEM

One accountable team.

Every trade in-house.

A full-service electrical contractor for buildings, specialist installations and alternative energy — delivered by a single team responsible from design through close-out.

01

Low Voltage & Buildings

Complete LV installation for commercial, industrial, healthcare and residential projects — distribution boards, containment, lighting, small power and data.

02

Alternative Energy

Grid-tied, off-grid and hybrid solar PV; lithium battery storage; generator integration; NRS 097-compliant designs with monitoring and maintenance.

03

Specialist Systems

Isolated power systems for theatres, UPS and emergency power, standby generators, BMS integration, structured cabling, high-mast and street lighting.

04

Maintenance & Compliance

Certificate of Compliance (CoC) inspections, thermographic surveys, planned preventative maintenance contracts, 24/7 breakdown response.

05

Design & Project Management

In-house design, load calculations, tender preparation, SANS-compliant specification, CAD drawings, site supervision and project close-out.

06

Sustainable Retrofit

Energy audits, lighting upgrades, power-factor correction and peak-shaving deployments with documented payback and staged rollout plans.

Durban High Court

Administration & Parking.

DURBAN CBD · PUBLIC SECTOR · COMPLETED 2026

Electrical installation to the administration and parking building at the Durban High Court — supporting atrium, office, parking and service environments across nine storeys.

LV RETICULATION

Corporate

SECTOR

ADDRESSABLE LIGHTING CONTROL

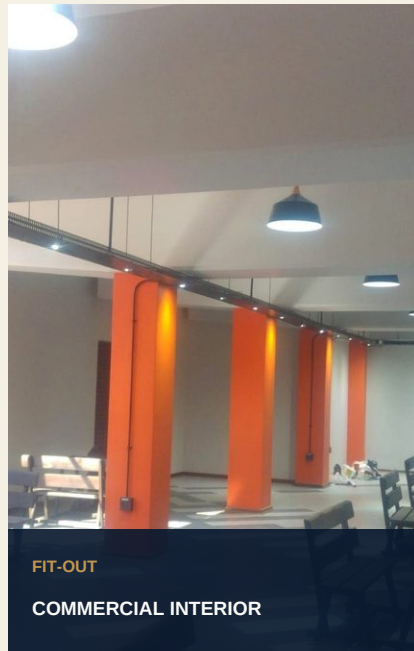

Lighting throughout the building runs on a DALI addressable control system. Every luminaire is individually addressed rather than hard-wired to a circuit, so zones, scenes and switching can be reconfigured in software as floor layouts change — without pulling new cable. Faults report per fitting, which turns lamp maintenance from a search into a work order.

SHEPSTONE & WYLIE HEAD OFFICE

Fit-outs built *for operation.*

Selected delivery across customer-facing retail, operational industrial and professional commercial environments.

DELIVERY STANDARD

Clear scope · Coordinated installation · Commissioned handover

A record built *across sectors.*

Additional completed work across healthcare, education, residential, retail, commercial, transport, public infrastructure and hospitality environments.

The craft *beneath the finish.*

The switchgear, terminations, feature lighting and site services that determine how reliably an installation performs long after handover.

DELIVERY STANDARD

Detailed installation · Tested systems · Documented close-out

Engineered to the site, *priced to pay back.*

Practical energy systems designed around the building's real load, operating hours and resilience requirements — with installation and long-term support under one team.

ROOFTOP PV ARRAY

01

SOLAR PV

Rooftop and ground-mounted generation sized to the site's verified demand.

02

BATTERY STORAGE

Backup and load-shifting systems integrated with existing distribution.

03

EFFICIENCY AUDITS

Load studies and energy reviews that identify waste before capital is spent.

OUR APPROACH

Load study · Design · Install · Monitor

Registered, verifiable, *non-negotiable.*

What we hold, and what it means for the work. Certificates and supporting documents accompany every tender submission, or on request.

ISO 9001:2015

QUALITY MANAGEMENT

A certified quality management system governing method statements, inspection and testing records, and documented project close-out on every contract.

CIDB 6EB PE · 5EP PE

CONSTRUCTION INDUSTRY DEVELOPMENT BOARD

Registered for electrical engineering works in both the building (EB) and infrastructure (EP) classes — the grading public-sector work is awarded against.

B-BBEE Level 2

BROAD-BASED BLACK ECONOMIC EMPOWERMENT

Level 2 contributor, carrying 125% procurement recognition onto our clients' scorecards.

K.P.D Power (Pty) Ltd

REGISTERED ENTITY

Registration 2023 / 249236 / 07. Electrical contracting in Durban since 1988, founded by Logan Naidu.

HEALTH, SAFETY & QUALITY — NON-NEGOTIABLE

K.P.D Power operates in accordance with the Occupational Health and Safety Act No. 85 of 1993 and its Construction Regulations. Every site runs on a project-specific H&S file, with daily toolbox talks, enforced PPE, monthly safety audits and documented incident reporting.

Let's build *something together.*
